

SALIENT FEATURE of WELSPUN MIDDLE EAST PLANT

- Two Step High Speed Mill with speed up to 8 Mtr/Minute
- All Spiral Mills equipped with automated laser control seam tracking system
- State of Art Automated CNC controlled Strip Edge Milling Machine
- Automatic Digitally Controlled, Spatter less GMAW System for Off Line Mill
- DATA Logging of weld parameter
- Automatic Stick-out Control for Off-Line Welding Facility
- Coil Ultrasonic Testing with 100% coverage
- Latest Ultra Sonic machines for Final Weld Testing
- Fully equipped Laboratory with ISO 17025 certification
- Complete Pipe Traceability by SAP ECC 6 & Bar Code
- Digital X ray system for radiography (Under commissioning)
- SAP integration of all Quality Parameter through Intelligent plant Framework (Under Commissioning)
- Integrated DJ and coating mill to support the one stop solution to the customers.
- Vacuum system to handle the pipes to avoid an kind of damages to pipes and coatings.
